Julie R. Prado, Executive Director

July 15, 2020

Hello,

I would like to introduce you to CSCSA and tell you a little about our agency and our agency goals.

Central Sierra Child Support Agency administers the IV-D program in the mountain counties of Alpine, Amador, Calaveras, and Tuolumne. We have various mandated functions including parentage establishment and enforcement of court orders as they pertain to child support. This is our job however, our passion and our vision are to enrich the lives of children, specifically the children who reside within our four counties.

Like many other agencies in our area we are small however, it is our goal to have a large impact on children's lives.

This letter is being sent to you because we would like to explore partnering with you in innovative ways for the enrichment of families and children's lives. We can see the work you are already doing in our communities and we would like to be part of that work. We have approximately 5000 cases, which equals twice that number of parents, and we have a dedicated staff of 28.

Our belief is that by combining forces we can offer services to the customer base we may already have in common, and expand the influence and impact of both our agencies towards the goal of enriching the lives of children and meeting the needs of our communities.

Sincerely,

A handwritten signature in cursive script that reads "Gina E Bachtelle".
