Behavioral Health Crisis Line: Ph# 209-223-6412

Please see this important announcement from Health and Human Services/Behavioral Health:

In accordance with the Shelter-In-Place order from our Public Health Officer and Governor Newsom, the Health and Human Services building is closed to the public, effective today March 20, 2020. As essential services and staff, Behavioral Health will continue to provide services primarily by phone. Very limited services will be provided on a case by case basis for essential services that require a face to face visit. Our priority is to continue to provide services safely for our clients, our staff and our community. As the situation changes, continued modifications to services may occur and we will continue to provide updates.
